PRICING

➤ PRICING INFORMATION:

The cost of many cheese products are affected by the daily and weekly fluctuation of the Chicago Mercantile Exchange (CME). Jim's Cheese LLC uses three pricing formats based on the market sensitivity of the different cheese items we sell; Market (+) Premium Pricing and Fixed Pricing. A description of each pricing format is provided below.

➤ MARKET + PREMIUM PRICE:

Most block cheese pricing is based upon daily or weekly fluctuations in the CME. In order to obtain a fair and consistent price on our bulk cheeses, we have chosen to follow the CME on most items. Jim's Cheese uses the previous week's CME average, which changes on a weekly basis and is updated each Monday. A plus sign (+) in front of a price indicates this is a Market + Premium Price. Please call to confirm the market price. The price is determined and effective on the day the order placed.

The following is an example of what your cost would be for Mild Cheddar loaves during a week when the CME is at \$1.70:

Current Market Price	\$1.70 lb.
2/5 lb. Mild Cheddar Loaves	+ <u>\$1.60 lb.</u>
Your Cost	\$3.30 lb.

➤ FIXED PRICE:

- For cheese items that are *not* affected by changes in the CME, pricing is fixed and does not vary with fluctuations in the CME.

RETURN AUTHORIZATION REQUIREMENTS AND CREDIT POLICY

Please be aware that “Aged” cheese by its nature will often have surface mold.

This is the natural effect of the aging process and the mold should simply be scraped or cut off.

- A copy of the RGA must be included with the returned item.
- Any product returned without a RGA, will not be accepted for credit.
